

FORTEK UNIFY

ONE PLATFORM. TOTAL CONTROL.

Fortek Unify connects all critical building systems into a single, cohesive ecosystem to deliver complete property oversight with custom-fit interfaces for your facility.

- Facility-Specific Design:**
 Interfaces built specifically for every property type.
- Complete Oversight:**
 Total control across your entire property from one screen.
- Multisite Support:**
 Seamlessly connect and manage single properties or entire portfolios from one hub.

FULLY CUSTOMIZED
Solutions built to fit your unique needs.

INTEGRATED
Works seamlessly with all critical systems.

TOTAL CONTROL
Manage everything from one unified platform.

MULTI-SITE MANAGEMENT |

Manage multiple properties remotely from a single platform, featuring specialized workflows for residential and commercial buildings, companies, coworking spaces, hotels and health clubs.

ACCESS CONTROL |

Secure and monitor every entry point, from common areas and elevators to wireless suite locks and storage lockers.

SURVEILLANCE SYSTEM |

Integrate with top camera manufacturers to stream live feeds and review event playback directly inside the Fortek Unify app.

SUITE ALARMS |

Protect individual units with real-time security tracking and instant incident alerts delivered straight to the front desk.

WATER MITIGATION |

Partner with industry-leading leak detection systems to automatically monitor, alert, and shut off water flow across the entire property.

VISITOR MANAGEMENT |

Connect with leading enterphones and the Fortek Kiosk to streamline guest check-ins, print badges, alert hosts instantly via SMS or email, and handle fast check-outs.

FLEXIBLE IP ARCHITECTURE |

Enjoy a modern, modular, and scalable IP system that adapts, as well as Open APIs for seamless integrations.
