

# VISITOR KIOSK

## KEY SYSTEM CAPABILITIES

### Access Control Integration

Deeply integrated with Fortek Unify, the system automatically syncs with your access control user database. Effortlessly manage host availability to specify which users visitors can contact.

### Instant Host Notifications

Sends instant notifications to hosts via SMS and Email as soon as a visitor registers at the kiosk, ensuring prompt host reception and zero delay.

### Automated Badge Printing

Automatically triggers wirelessly connected thermal printers to print customized visitor badges including QR code, visitor name, and host information upon completed registration.

### Express QR Check-Out

Visitors can scan the QR code on their physical badge at the kiosk scanner to quickly check-out when leaving, maintaining accurate real-time building safety logs.

### Centralized Multi-Location Management

Manage visitor check-ins across multiple doors and locations with unified centralized control.

## END-TO-END VISITOR JOURNEY

**1**

### Self Check-in

Enter Details & Purpose

**2**

### Host Alert

Instant SMS & Email

**3**

### Badged Issued

Thermal QR badge printed

**4**

### QR Exit

Scan badge & check out
